Introduction of Beijing Institute of Technology

Founded in 1940, Beijing Institute of Technology (BIT) stands as one of China's national key universities, consistently recognized and included in the prestigious "211 Project", "985 Project", and "Double First-Class" initiatives for universities. BIT enjoys a prominent position in both domestic and global educational spheres, boasting widespread influence reflected in its accolades including a rank of 340 in the 2024 QS World University Rankings, a placement within the 101-150 range in the 2023 Academic Ranking of World Universities (ARWU), and a commendable 9th place in the Chinese Mainland according to the QS Global Graduate Employability Rankings 2022.

While science and engineering constitute its primary focus, BIT maintains a harmonious development across other fields including management and humanities, with many of its disciplines consistently ranking within the top 10 in China. In recent years, BIT has elevated its international stature through the steadfast execution of an internationalization strategy, fostering a "big community" for the cultivation of global talents and continually enhancing the quality of its educational offerings. This forward-thinking approach extends to creating a cosmopolitan learning and living environment on campus, a testament to its evolving international presence and influence. Today, BIT takes pride in nurturing a vibrant and diverse student body that surpasses 2,700 international students from 149 countries around the world.
