**WENG LIM TAY, MALAYSIA**  
BA International Business with a Language

Coming to China as an International Business student at XJTLU, I immediately knew how incredible this journey would be—a truly international community, a versatile yet detailed curriculum, and attentive, professional staff. What I didn't expect was that by graduation, I'd have co-founded a business, acted in films, worked as a marketing manager, become a dragon boater, managed Chinese export logistics, volunteered in animal welfare, and been a digital designer for artists and businesses. Looking back, I can only urge you: seize every opportunity XJTLU offers for your growth!

## CHINESE CLASSES

The School of Languages provides Chinese language classes to all full-time international students. We are committed to creating a high-quality platform for you to learn Chinese and understand China.

The Chinese Language Division uses the latest student-centred approaches to learning while prioritising communicative competence using the most up-to-date techniques, technologies, and classroom learning materials. The Chinese language lecturers provide tailored material and teaching methodology to help students develop Chinese language skills and a deeper understanding of China's unique culture. These modules are supported and enhanced by various educational technologies, such as our in-house virtual learning environment through the Virtual Reality Language Learning Laboratory (VRLLL).

### REALITY-CENTRED PRACTICAL CHINESE LESSONS

Our Chinese language courses are designed for real people who live long-term or are staying in China for a short while and want to communicate with locals successfully and with confidence. Whether you are here for work or on the holiday of a lifetime, our Chinese language classes will equip you with all the skills you need to take on the enjoyable challenges of ordering a meal, using transport or shopping for the latest trends.

Our classes focus on language that you will actually use day to day while you are in China. We combine the listening, speaking, reading and writing skills that you will actually need and use every time you go out and interact with Chinese speakers and the Chinese environment you live in.

### CULTURAL ACTIVITIES

We strongly believe that language and culture are strongly linked, and, because of this, we offer all of our learners a range of optional cultural activities to deepen their understanding of the world in which the language is actively used. These activities can be historical and traditional, such as Chinese calligraphy, visits to museums and places of historical significance, and the learning about and wearing of traditional Chinese costume. They can also be modern and fun, like when we go downtown to the latest trendy restaurant for a fabulous meal!

### GLOBALLY RECOGNISED HSK CERTIFICATION

We are also an official testing centre for the globally recognised HSK national Chinese language proficiency exam. Employers the world over are enthusiastic to employ graduates with an HSK qualification.

"SOFTA has helped me so much knowing the ins and outs of film productions. The road was bumpy, difficult and often times stressful, but thanks to the bountiful opportunities I've received, I couldn't be more thankful of my creative growth as a storyteller. Now I graduate with projects I can look back on and be proud of."
